LEAVITT TRAINING is an established safety training provider having issued certifications for more than 100,000 operators and in-house instructors to date.

All of our operator safety training programs have been designed with the adult learner in mind, and cover Operator Responsibilities, Pre-Shift Inspections, Safe Operation, Proper Shut-Down of Equipment and more.

We offer regular training dates at many of our branch and authorized partner locations throughout North America as well as providing on site training for specialty equipment or site specifics. We understand that you have unique training needs and can work with you to deliver custom training solutions.

Technical equipment maintenance training, custom program development, safety consulting services and learning management system services are also available.
Leavitt Machinery’s Rentals Division has one of the largest and most diversified selections of forklift, aerial lift and construction equipment rentals available in North America with over 40 locations to serve you.

Short & Long Term Rentals Available
